Deus Ex Machina

Program Notes

Some people say I suffer from an overactive imagination.

That is not true. I don't suffer from it at all. I enjoy every minute of it.

I remember being in English class in high school, and learning about classical plays. Mrs. Eggburn (my fantastic 11th Grade English teacher) mentioned the "Deus Ex Machina," or "God of the Machine." I'm not sure what she said after that because my mind was busy envisioning an ancient God brought into the modern age, with glowing neon eyes, speakers inside his mouth, and pulsing circuits growing out from his body into his temple built of circuit boards. It's an image that has stayed with me ever since every time I hear that particular term.

This work for concert band combines exotic scales, cinematic scoring, digital effects, and a dub-step feel to create a truly unique experience for the player and audience. Is it pop? Is it symphonic? Does it matter? Music is music and it's either effective or it's not.

Deus Ex Machina was commissioned by the Georgia Music Educators District Six for their 9ths-10th grade honor band. They were very kind by allowing me to write something that was far outside the norm, and I will always be grateful.

Peace, Love, and Music.

Rehearsal Suggestions

-The tempo of this work is critical to its character. When planning your preparation, make sure to allow time for proper technical development to achieve the written tempos, lest the work come off as "boring."

-Dynamics should be noticeable and taken to extremes.

-The percussion should be on the slightly louder side of the balance spectrum. Please do not "hide" them. However, they should not cover the ensemble.

-Several percussion changes happen very quickly. Be sure that the mallets and trap tables are well planned out to allow for quick changes.

-Performances of the work should have a dramatic, cinematic quality.

-As with any piece that utilizes technology, be sure to do a sound-check before any performance. You don't want any unwelcome surprises

-Sound Effect samples are available for download from my website at www.randallstandridge.com
